To our Shareholders

We have just finished, hopefully, last of the toughest year where capital investments continued to be low.

The results of the year 2014-15 show marginal rise in Revenues compared to the previous year. Income for the year is Rs.7538 lacs as against Rs.7244 lacs in the previous year. Profit before tax stands at Rs.104 lacs as against Rs.389 lacs in the previous year. The Board of Directors has recommended a dividend of 50% (Rs.5/- per share).

The year 2014-15 saw a sea change in the country. New Government with clear majority took charge at Center. There is an air of optimism and expectations of good economic growth and ease of doing business. Given the reform push and the concrete steps being taken by Government to kickstart stalled projects, the prospects of beginning of a new capex cycle seem quite likely. We hope our customers will also start investing and we expect our product lines should also be doing better going forward.

Some of the key segments like Power and Automobiles to which our Company caters to continued to be slow last year which should show growth in coming year. Organized as well as unorganized competition vying for higher shares affected the price realizations affecting the profitability.

With a hope of market pick up, we are sharply focusing on increasing market share for revenue growth.

In **Engineered Products Division**, we operate in various private and Government segments. Automobile and auto ancillaries continued their decline which affected our bookings to large extent. We observed some movement in power segment wherein our Electrical business showed some improvement. Education and R&D establishments continued to invest at past rates. Going forward, we hope that a stable Government at the center will boost capital goods investments which should benefit our Company. During the year, Government has imposed Service Tax on commission earned in foreign currency and it impacted the Division adversely affecting the overall bottom line.

We plan to strengthen our Services business further by adding resources. This will help deepen our existing customer relationships deeper and also provide an opportunity to add new customers.

The **Material Handling Division** did slightly better in terms of order booking. We also used the year to focus on better Quality of products, streamlining manufacturing activities and focusing on commercial discipline. Lot of global competition, unorganized sector competition continues to put pressure on margins.

We do expect that warehousing and logistics activities to pick up as the overall health of economy improves. We are well placed to capture this growth.

Productivity improvement, Human resources and talent management continues to be the key challenge. Training, system and process focus, better employee engagement, sharper accountability culture continue to be our thrust areas in this regard. We are also planning to invest in CRM solutions to further improve our sales force productivity and customer experience.

We thank our Employees, Principals, Bankers, Suppliers, Shareholders and all the people associated with the Company, for their total co-operation and support.

Notes to the Financial Statements for the year ended 31st March, 2015

Note 1.

Significant Accounting Policies:

a. Basis of accounting:

The Financial statements are prepared under the historical cost convention on an accrual basis and are in accordance with the requirements of the Companies Act, 2013 ("the Act") and comply with the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules 2014.

The preparation of financial statements requires the management to make estimates and assumptions in the reported amounts of assets and liabilities (including current liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

b. Fixed assets and Depreciation/Amortisation:

All fixed assets are at cost of acquisition less depreciation/amortisation.

The carrying value of the fixed assets as on April 1, 2014 as well as the additions during the year have been depreciated over the remaining useful life of the assets on the written down value method as prescribed under Part C of Schedule II to the Companies Act, 2013.

Depreciation on additions to Fixed Assets has been provided on a prorata basis from the date of such additions.

d. Inventories:

Inventories are valued at cost or net realisable value whichever is lower. Cost is arrived at on the basis of weighted average method and includes applicable production overheads.

e. Investments:

Current Investments are stated at lower of cost and fair value.

f. Impairment of Assets:

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets when at the balance sheet date there are indications of impairment and the carrying amount of the assets, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of Profit and Loss.
