

Storage Solutions from Josts

JORACK are the perfect storage solutions from Josts for all types of items to be stored on racks. The design incorporates a suitable safety factor that does not allow the beam deflection to go beyond L/200 of the span length under recommended load. Apart from guarantying safety, Jorack solutions aims at maximum storage capacity with minimum loss of space with out compromising the operational efficiency.

The customer has to just provide the ground / floor layout drawing and Josts can provide suitable Jorack solutions to suit specific needs. Josts takes into account the customer's various usage and application parameters while designing suitable Jorack solutions by incorporating adequate aisles, underpasses and gangways to allow easy movement of material without cluttering and at the same time without compromising the number of storage locations. With Jorack solutions the customers will be able to maximise the storage as well as the throughput.

Jorack wide variety of Racking systems comprises of the following:

Light Duty Jorack	Load capacities 250 kgs per level & Height up to 3000 mm
Medium Duty Jorack	Load capacities 500 - 1000 kgs per level & Height up to 3500 mm
Heavy Duty Jorack	Load capacity 1000 - 2000 kgs per pallet & Height up to 13000 mm
Mezzanine Floors	Load capacity 200 - 1500 kgs per square meter & Height up to 3500 mm
Multi-Tier Jorack	Load capacity 200 - 1200 kgs per square meter & Height up to 15000 mm
Cantilever Jorack	Load capacity 500 - 4000 kgs per level and height up to 6000 mm
Drive-In Jorack	Load capacity 500 - 1500 kgs per pallet & Deep up to 8 times
VNA Jorack	Load capacity 1000 - 1500 kgs & Height up to 17000 mm
Textile Jorack	Load capacity 500 - 3000 kgs & Height up to 7000 mm

Light Duty Jorack

Medium Duty Jorack

Heavy Duty Jorack

Mezzanine Jorack

Textile Jorack

Multi-Tier Jorack

Drive-In Jorack

Cantilever Jorack

VNA Jorack

Jorack Storage Racks are steadfast in answering the changing needs of the industry. With Jorack Storage Racking System, the customers can enjoy the benefits such as:

- Reduced Handling
- Saving in Labour
- Reduced Product Damage
- Lower Inventory and w.i.p. Goods
- Faster Goods in and Goods out Movement
- Optimum Space Utilisation (Vertical as well Horizontal space)
- Easy Stock Taking
- First-In-First-Out Storage

Joracks superior quality is ensured by precise manufacturing from high quality grade steel sheets. The column and span sections are rolled and punched to precise dimensions to very close tolerances. The special powder coating ensures elegant finish and durability.

Jorack storage systems are fully backed by maintenance facilities by Josts from their sales and service offices at Mumbai, Pune, Vadodara, Hyderabad, Chennai, Bengaluru, Kolkata, and New Delhi.

Josts now offer you the biggest advantage - a one source company for comprehensive range of Storage Systems and Material Handling Equipments such as Pallet Trucks, Stackers, Forklifts, Reach Trucks, Order Pickers and Side Loaders.

In case any questions, query or requirement, please feel absolutely free to convey to the email at infomhe@josts.in
