

## Jost's Reach Truck JRT A16 / A20

Since 1960's, Josts has been providing complete solutions for material movement and material handling applications in warehousing as well as industrial environments through its comprehensive range of material handling equipments.

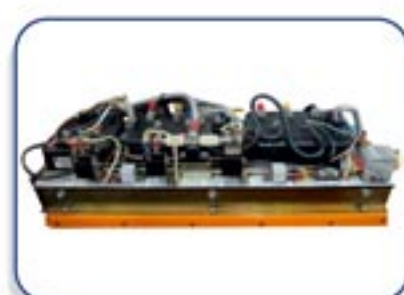

Being a leading manufacturer of Internal Material Handling Equipments in India for over 60 years, Josts now presents their AC version of Reach Truck model JRT A16 / A20. Jost's Reach Truck is a powerful and energy efficient truck with advanced technology suitable for indoor and warehousing applications. In our endeavor to provide lasting material handling solutions, Josts have indigenously designed and developed the Reach Truck, that goes a long way in enhancing productivity and ensuring safe handling of loads.

**JRT A16 / A20** is a powerful and energy efficient reach truck with advanced AC technology suitable for indoor and warehousing applications. **JRT A16 / A20** comes with excellent Power and Performance with safety, durability and faster travel with maximum operator's comfort as prime priority and comes with features and benefits like:

- Capacities up to 2000 kg @ 600 mm load centre
- Lift heights up to 11960 mm
- Triple AC motors synchronised by advanced microprocessor based Mosfet controllers
- Simple & smooth controls, electric power steering, large graphic display enables stress-free operation
- Adjustable steering wheel enables fatigue free operation while maneuvering in confined area
- Ergonomically convenient operators area provides maximum operator's comfort
- Safety interlock switch ensures 'NO OPERATOR - NO OPERATION'
- Low center of gravity design provides robustness, stability and safety
- The truck incorporates a unique platform of CANBUS communicating controllers
- Special combi-switches for controlling motion and other accessories
- Twin-pilot control joysticks for smooth control of all four hydraulic operations
- Automatic Center Positioning at starting
- Better sensing devices, integrated controllers and
- Informative LCD display enhances operational performance
- Automatic reduction of speed during turning
- Regenerative braking during deceleration of vehicle
- Lower operating cost due to lower energy consumption
- Longer battery life due to efficient work cycles
- Improved and advanced automation
- Enhanced operational safety due to safe inter-connectivity
- Perfect Fit for Busy Operations
- Ideal arrangement of components for easy maintenance.

### Standard LCD display information

The multifunctional display indicates information like ;

1. Fault diagnosis.
2. Battery level.
3. Equipment speed.
4. Operating hours (total time).
5. Service due time.
6. Status of truck direction (forward / reverse) and neutral position.
7. Parking signal.

### Other Optional Features

1. Camera with Display Monitor.
2. Load backrest.
3. Height Indicator.
4. Smart electronic key-code pad (for password protection).

Jost's Reach Truck JRT A16 / A20 has been designed to deliver excellent

Performance

Reliability

Comfort

Thereby, providing best value for the money invested.
