JOSTS | MATERIAL HANDLING SOLUTIONS

Many warehouse operators face a nightmare when they have to handle a number of trucks in a day. Thus, very often one finds a warehouse in a big mess, with unorganised stocking & cluttering, multiple handling, shifting, criss-cross movement of labour resulting in highly inefficient and uneconomical material handling.

Josts, a pioneer in internal logistics solutions in India, can offer the "all-round solutions" for loading/unloading, stacking/retrieving, transporting and Storing with a comprehensive range of material handling products and consulting covering the entire field of intra-logistics.

Efficient transporting, stacking, order picking, whether in narrow aisles, on lorries or ramps – the Josts range of warehousing equipment's are designed to deliver Excellent - Performance, Reliability and Comfort, thereby providing best value for the money invested.
