

## Providing Custom Connector Solutions and Industry Expertise to the Military and Aerospace Markets

## WHY CHOOSE FILCONN, INC.?

### Engineer to Engineer Communication

Filconn, Inc. is a manufacturer of Customer Aerospace and Mil spec grade specialty connectors. Our Primary focus is Filter & Transient Suppression Connectors, but we make a wide variety of unique devices that are engineered for specific applications. Each customer is assigned to an Engineer who has years of experience in the design and manufacturer of customer connectors. Our customers get their technical questions answered fast through dialogue with technically knowledgeable staff.

### Short Lead Times

The ability to control lead times translates to a time-to-market that is measured in days, not weeks. Filconn, Inc. has invested in various capital equipment purchases that allow us to manufacture many of the components required to build Filter Connectors in house effectively

## EMI/EMP Filtering Construction & Performance

*Strong attenuation levels provide increase performance and increase reliability*

*PI-Filters, C Filters and Cascading Filters all available for EMI noise reduction per Mil-461*

## EMI/RFI shielding effectiveness for Cables & Harnesses

*EMI backshells provide excellent shielding and support any mil-spec connector series*

*Filconn's IBP (integrated banding platform) provides the best available shielding effectiveness and lowest dc resistance of .03 mhom, as well as reduced profile and weight*
